

The easiest process

ORDER

Create orders via Test **Requisition Form**, or via an Internet Client Portal linked to our lab, or via an Interface with your EMR.

Pre-designed and customizable **Test Panels** are available.

Requisition Form

Client Portal / LIS

We provide:

- Customized Requisition Form
- Medical consultant for test selections
- Sample collection on-site (lab)
- Sample drop-off boxes for your office
- Courier services from your office
- 24-hour customer support

Prompt, Professional, Precise, Personal

The highest quality

TESTING

Test samples are subjected to screening tests for substances and/or their metabolites.

Indiko Plus Chemistry Analyzer for Screening Test

- Highly sensitive immunoassay **screening tests** with specimen validity testing (SVT).

Presumptive positive screening test results can undergo confirmatory testing.

- Highly sensitive and specific **confirmation tests** use liquid chromatography with tandem mass spectrometry (LC-MS/MS)

Sciex Triple Quad LC-MS/MS for Confirmation Test

VIRANT
DIAGNOSTICS

COLA[®]

CLIA and COLA Accredited Laboratory

The quickest turnaround

RESULTS

- **Screening** test results are reported within 12-24 hours after receiving samples.
- **Confirmation** test results are reported within 24-48 hours after receiving samples.
- Our **staff physicians** can assist in the professional interpretation of test results, which can be crucial in optimizing plans for patient management and treatment
- Results can be accessed via Laboratory Information System (LIS) **Client and Patient Portal**.
- **Customized** report formats are available.
